

Mr Neil Murray – Director

Bachelor of Engineering (Electrical & Electronics)

Grad Dip Computing Science

Patent and Trademark Attorney (Australia and New Zealand)

Neil is a registered Australian and New Zealand Patent and Trademark Attorney and prior to establishing Murray Trento & Associates Pty Ltd, Neil was a Partner of a national firm based in Melbourne.

Neil was awarded a Bachelor of Engineering (Electrical and Electronic) from the University of Adelaide and subsequently returned to obtain a Graduate Diploma in Computing Science.

Neil has lived and worked in the United States and during that time he gained substantial experience and insight that regularly benefits his clients. As a result of regular travel overseas to attend conferences, Neil is able to remain up to date with developments in those jurisdictions. Neil has attended Oral Proceedings at the European Patent Office (EPO) on more than one occasion and has also attended Examiner interviews at the

United States Patent and Trademark Office (USPTO) to advance his clients' patent applications.

In addition to his patent practice, Neil also regularly prepares and prosecutes design and trade mark applications for both local and overseas clients and is involved in contentious matters including patent oppositions and litigation support.

Neil has particular experience drafting and prosecuting patent applications in the following technical fields:

- Computer-implemented inventions including control systems, methods of improving processes including manufacturing processes, purchase and distribution of goods and services and performance improvement of systems generally.
- Software systems including systems for searching very large data sets and presentation of results, systems for improved authentication techniques, security protocols and payment processing.
- Electro-magnetic radiation shielding devices including passive and active shielding of RF radiation.
- Adiabatic cooling systems and drift reduction technologies.
- Medical devices including vascular stent technologies and fabrication and implantation techniques.
- Mechanical devices and manufacturing methods for production including metal fabrication techniques, building products and construction materials.

Neil strives to provide strategic advice that is commercially appropriate to clients and is focused upon establishing strong working relationships with all clients seeking to protect and/or enforce their intellectual property rights.

Mr. Neil Murray Professional Associations

- Fellow of the Institute of Patent and Trade Mark Attorneys (FIPTA)
- Member of the American Intellectual Property Law Association (AIPLA)
- Member of International Federation of Intellectual Property Attorneys (FICPI)
- Member of the International Trademark Association (INTA)
